Wednesday, May 12, 2021

- 1300 to 1700: David Dahlmeier and Duane Wolf – Investigations Involving Gas Systems and Appliances and Legal Considerations

An 8-hour basic fire investigation course (taught by MN SFM Kevin Mahle and ATF-CFI Nicole Hajny) will be held prior to March 24, 2021. This class will be split into two, 4-hour segments. The dates for these sessions will be announced in the near future.

The lectures will be held online via the Chapter's Zoom account. Best of all, this training is FREE! The links for the lectures will be sent out a few days ahead of time. The agenda for the annual meeting will be sent out in advance for review prior to the meeting.

Each lecture will have its own test. The tests will be conducted online through a link sent out after the lecture.
